Transforming with a human touch

ALL FOR ONE - ONE FOR ALL

“God in the human form” – God said that he loves those who love their neighbors – As God is responsible to see the good and bad of all human beings he has created, he said that those humans who love their neighbors and help them are equal to him.

Human being is the highest of all the living beings. Humans are being created with more thinking power than any other living being on this earth. That is the reason why man in the course of time, was able to create a society. Society means a flow of goodness where everyone feels **All for one – One for all for each other.** With thousands of years experience man has designed few regulations which can protect values for enabling everyone in such society to live happily and respectably.

If every human being follows ethical values under humanitarian grounds and lives giving respect to **mother - father, teacher - god, guests - love, devotion,** it will lead to the development of person, thereby family, thereby society, thereby the country. Society will become a paradise on earth when everyone loves his neighbor, protects the ethics, works hard believing the truth.

These aspects will come into the experience of everyone lately but if they follow the experienced advice of elders, it will enable us to lead life happily and prospectively without any ups and downs right from the beginning.

**“Save righteousness. It saves you” – “Hard work never fails” –
“Truth always wins”**
